**Apple Media Services:
Testflight Data History - Crashes**

June 2019

File name Testflight Data History-crashes.csv

File description This is a list of dates for each time a beta app has crashed for the customer

Why Apple keeps this information Beta app crashes are tracked so Apple can let the app developer know how often their beta app crashes.

Field Name	Details
appAdamId	Apple's unique identifier for the subject
periodInterval	Data identifying the interval of the data (e.g. daily, monthly, et al.)
periodStart	Start date for the period.
periodValue	Value for the specific metric in the given period.
